

FIS Committee: Master Racing

Date and site of meeting: May 24th 2007, Portorz

Report submitted by: Bob Dart

Initiatives for the meeting:

- Calendar 2007/2008
- Master Points List
- Results on FIS-website
- Limited participation at Criterium
- Master Rule addition and clarification
- Equipment Rules for Masters

Key information points:

- Calendar was confirmed the Criterium will be in April 1-5, with FMC taking place on the 5th
- The points list was not published as scheduled last season, reason not all results came in electronically which created problem posting on web site and calculating points. The committee passed a Motion all sites hosting FMC races must use the FIS program or submit results that are FIS compatible XML format
- The working group will continue to study on how to have a quota system if need at the Criterium Finals
- A number of rules for clarified that will be published and updated on The FIS website, there was a request to print Master Rules the same as an ICR.
- A new proposal is being summated to the Equipment Committee. The new proposal is the length and radius are change to a Recommendation, The rules concerning maximum height of skis/plate and ski boot soles will remain Mandatory.

Notes and comments:

- During the Cross Country report it was noted that World Cross Country Mater Cup will be held in the US March 7th in McCall Idaho. This event attracts a large number of participants from Europe.
- Thanks to Anne and Jeff for there attendance when I had another meeting.

Specific information for USSA staff with action items:

- Need to look at new equipment standards if passed and see how this will effect or USSA Maters Equipment Rules.
- Follow up on the Cross Country event,
- If USSA will be hoisting FMC events in the future, make sure we can send results in as required (FIS format)
