Masters National Downhill Information

Rocky Mountain Masters and Ski Cooper are pleased to be hosting this year's Master's National Downhill Championship on March 8-11. The event will include a mandatory timed training run and race runs. The Ski Cooper downhill venue has a heated start house and an amazing view. The course is very Masters friendly and is an excellent venue for both experienced speed skiers and newer racers.

Registration is being run through www.skiracereg.com. On-line registration is open and we encourage competitors to sign up as early as possible to help with event planning.

Travel

Ski Cooper is 2.5 hours (130 miles) from the Denver International Airport on I-70. Be aware that in winter time during snow and peak driving times, it can be in excess of 4 hours.

Also note that I-70 now has a Traction Law that requires either snow tires, tires with the mud/snow (M+S) designation, or a four-wheel/all-wheel drive vehicle. All tires must have a minimum one-eighth inch tread. You can also install chains or an alternative traction device (like AutoSock) to be in compliance with the law if your tires aren't adequate.

Lodging

This week is considered Spring Break in the area so be sure to book rooms as early as possible for best rates and availability.

Below are some of the more popular hotel and condo lodging options available in nearby Leadville (15 min) but there are many more. Larger hotel chains are located in Frisco (45 min) and Silverthorne/Dillon (50 min).
