

2026 Mammoth Masters National Championships Training

Mammoth Race Department will be providing GS and SL training courses on Sun Mar. 22 before the start of Masters National Championships racing on Monday. Cost is \$65 for training period 11:30am to 2pm. Racer price lift tickets will be available at the Race Dept office.

There **may** also be a SG training course provided, but that will depend on setup preparations and conditions.

A controlled free-skiing session on the SG track is planned for Tuesday Mar. 24 following the DH race, allowing SG competitors not participating in the DH an opportunity to access the race venue. Two runs are planned.

All training and racing is dependent on weather and conditions!
