**Software version:** National/FIS 6.40 rev 2 (2014-2015) ~~6.25 rev 17 (2012/2013)~~

**Subject:** Need Transmittal Sheet report available in Masters Alpine race

**Type:** defect

**Importance:** medium

### **Description:**

The list of Report choices for a Masters Alpine race is missing the Transmittal Sheet choice that's provided on Alpine and needed for preparing race results packages for submission to USSA.

### **Workaround:**

On the Header page, switch Discipline choice to Alpine to get at the Transmittal Sheet report, then switch back to Alpine Masters. Alpine transmittal sheet will list the men's race code.

### **Additional Information:**

Missing report entry report request originally submitted by Esther Delli Quadri [2013].

The Alpine report lists the Men's race code; for a Masters race, where we have separate race codes for each gender, RA can edit to clone for women's race code.

Need clarification: Not clear if we need dual transmittal sheet for masters, one with the men's race code and second with the women's race code. All the other race data and officials data pre-filled on the transmittal sheet is the same for a masters race in which both genders compete, so probably sufficient to just generate single transmittal sheet using the Men's race code.

## Additional Information

Alpine race Reports choices include Transmittal Sheet choice.
